CAROL BRICE FAMILY CENTER

If you work for a local non-profit in Fairbanks (whether paid or volunteer); we invite you along with your family members to attend this first ever event, aimed at providing health education, affordable blood tests and more to those who truly serve our residents in the community. Our agencies have various missions, visions and core purposes; but truly we all work to support, strengthen, and make healthy the surrounding community and those who reside in the northern areas of our state. Come join people with similar goals in mind and take time to find ways for improving your health! See you there!
